Grep command

Explore some other commands like -E, + and ?

Ans: -E – extended regular expression: it is used to find longer more complex patters when used with other meta characters such as '+' or '?'

'+' – it is a meta character used to find continuous occurrence of some patters ex: grep –E '[a-z]+' text.txt

'?' – another meta character that acts like a ternary operator
Ex: grep –E 'colou?r' text.txt
